MONEY, BONDS AND STOCKS,

Free Selling by Foreigners and Disquieting Rumors Cause a Decline in Prices. NEW YORK, Dec. 10.-Money on call was easy at 1@3 per cent., the last loan being made

at 1, closing offered at 1. Prime mercantile paper, 42 @64 per cent Sterling exchange was quiet, but stronger, with actual business at \$4.841 for sixty-day bills

and \$4.884 for demand. The total sales of stocks to-day were 309,030 shares, including the following: Delaware, Lackawanna & Western, 21,900; Erie, 7,625; Lake Shore, 22,332: Missouri Pacific, 18,900; Northwestern, 23,875; Norfolk & Western, preferred, 3,800; New York Central, 3,210; Northern Pacific, preferred, 4,185; Oregon Transcontinental, 5,570; Reading, 39,780; Richmond & West Point, 16,770; St. Paul, 48,125; Union Pacific,

11,830; Western Union, 12,275. The stock market was on a lower level all the way out to-day than on Saturday, prices dropping from to 3t per cent. in the forencon, only a portion of which was regained in the afternoon, although a few stocks showed marked strength and closed higher. The foreigners were free sellers at the opening here, as was also Boston, and the disquieting rumors from the other side were very effective in creating a feeling of uneasiness here, which gave the "bears" still another opportunity to hammer the list down. The carrying rate for American stocks was reported up to 10 per cent.; numerous failures were said to be imminent, and the Bank of England was again expected to advance its rate, which has now stood at 5 per cent. for three months. There was also a stiffening of the rates in sterling exchange here, and gold shipments were expected, which actually came to pass later in the day, \$1,115,000 being ordered for export. The later advices from London, however, had a more hopeful tenor, and the stock market there was reported better upon the news that £1,000,000 were to be sent to London from Russia. This checked the downward movement, and while the "bears" covered heavy lines of "shorts" at the low figures ruling throughout the forencon, the insiders also made large purchases, which gave the list a much more healthy appearance. There was no news of a character to affect the list from domestic sources, but the minority stockholders of the East Tennessee were reported to have withdrawn their suits against the lease to the Richmond & Danville, and this started the Richmend & West Point stock up; the rest of the list followed slowly, and although the reports were afterward contradicted, the presence of President Kimball in the city, with rumors of a complete settlement of the East Tennessee matter, kept the improvement going and material advances were made over the entire list. The market opened with a spurt of activity, and the transactions of the first bour were nearly one-half of the business done dur-ing the entire day. First prices were from ½ to } per cent. lower for the majority of the list, while Lackawanna and New England with 1 per cent., and Missouri Pacific with 11 were excep tional. Missouri Pacific followed this up with a further drop of 2 per cent., and Manitoba Cotton Oil, Atchison and the others followed. The weakness, however, was nearly over before were again upon the up-grade. The East Tennessee rumors helped the list

ing active and stronger, generally at but smal fractions from the opening figures. There were a large number of railroad bonds dealt in to-day, but the aggregate of the sales of all issues amounted to only \$1,084,000, and there was no special animation whatever. The tone of the dealings was generally heavy, and the majority of the list show small losses from last previous sales, while the important changes are few in number. The declines include Cedar Falls & Minneapolis firsts, 9, at 71, and Atlantic

in the afternoon, and prices slowly advanced

but in the last hour Missouri Pacific and New

England developed marked strength, and every

thing moved up more rapidly, the market clos

CHICAGO, Dec. 10.-In wheat a fair business was transacted, and the feeling was a trifle unsettled. There was some buying on Eastern account, and the outside business was possibly a little larger than at the close of last week. The opening was \$ @ le higher than the closing figures of Saturday, and ruled steady, but soon became weak and declined 1 @ to on reported liberal arrivals in the Northwest. But an increased demand, partially on Eastern account, had a strengthening effect, and, helped by local buying, prices were advanced to, again sold off to, rallied lie, and closed about 1tc higher than Saturday. The advance was attributed to reports from some sections claiming that the dry weather was having some effect upon the growing winter wheat; also, to the fact that the increase in the visible supply was only about half as large as was expected. Corn was rather quiet and the feeling delveloped was easier. The weakness early in the session was attributed largely to the free arrivals and liberal offerings December, which had a tendency to depress the other futures, there being considerable quantities of this month delivered late Saturday. The weather, also, was more favorable for the grading of new corn. Opening sales were at about Saturday's closing prices, after which the market sold off ic, reacted into became steady and closed into lower than on Saturday. In oats a moderate volume of business was transacted within a small range of prices. Holders sold quite freely early in the day. There were moderate buying orders and the inside offerings were gradually absorbed and prices bid up i wie from inside figures; the close was firm. Trading was moderately active in pork and the market somewhat unsettled and prices irregular. Opening sales were made at about Saturday's closing figures, quickly followed by a decline of 5c. Later "shorts" purchased to some extent and prices rallied 171 @ 20c and then settled back again 10c, Toward the close the feeling was steadier, and the market closed quiet. Lard exhibited a little more strength, with less pressure to sell. Prices ruled .10 @.12 to higher, and the improvement was moderately well supported to the close. Less activity was manifested in short ribs, and the market was steadier. Prices ruled .021 @.05c higher. The leading futures ranged as follows;

Wheat, 36,570,015 bu, an increase of 488. 000 bu; corn, 0,576,344 bu, a decrease of 480. 000 bu; oats, 7,591,566 bu, an increase of 25,000 bu; rye, 1,640,055 bu, a decrease of 11,000 bu; barley, 2,235,306 bu, a decrease of 95,000 bu.

The Foreign Grain Trade. LONDON Dec, 10 .- The Mark Lane Express, in its review of the British grain trade during the past week, says: Good dry English wheats have maintained prices, but the bulk of the offerings is of poor quality and has fallen 1 shilling. New wheat, mixed good foreign, has dropped 6d. The sales of English wheat during the weak were 55,821 quarters, at 31s 3d, against 66,838 quarters, at 31s 2d during the corresponding period last year. Flour is difficult to sell, the mildness of the weather, the abundance of vegetables and the fall in the price of potatoes limiting the consumption of bread. Foreign wheat is depressed; Russian has declined 1 shilling and Californian 6d; Indian is steady. Liverpool records a fall of 2d per cental on American white and Russian red wheat, and 1d per cental on Indian. At to-days market English wheats were firmer; foreign wheats were steady. Corn was quiet. Oats, beans and peas were unchanged. Linseed was rather

INDIANAPOLIS MARKETS. Activity and Firm Prices Are the Leading Characteristics of the Local Situation.

INDIANAPOLIS, Dec. 10.

Trade opened active to-day, and the business of the week promises to be large. Dry goods men are quite busy, a number of buyers being in, while mail orders were also large. Grocers were busy, and a disposition is shown on the part of retail merchants to stock up more freely while the roads are good and the weather fine. Coffees are in the same strong position, and sugars rule firm. Dried fruits are selling slow, and the inquiry for canned goods indicates a better demand in the near future. Syrups and molasses rule easy. In commenting on the high prices roling for coffees, dealers state that it is not wholly due to speculation. One importer, speaking of the situation, said: "The stock of all kinds in Rio, Santos, the Unit ed States and Europe Nov. 1 was 1,907,471 bags, sgainst 3,295,183 bags a year ago, and, including the amount affoat, the total stock is 2,408,471 bags, a decrease 1,236,712 bags compared with stock of Nov. 1, 1887, and of 1,658,185 compared with that of 1886. The consumption for the four months ending Nov. 1. in the United States, increased one million bags. These statistics, coupled with a period of wet weather in Brazil, are what strengthen the spot market. Fair Rio coffee, which is now worth 17½e per pound, sold last month at 13c, and on Nov. 1 at 15½c." The produce markets were quite active for Monday.

Apples and potatoes rule firm and steady, and are meeting with fair sale. Some choice fruit brings \$2.50 per barrel, but more sell at \$1.75 per barrel than at any other quotation. Eggs break further, and ishippers would pay but 18e per dozen, to-day, and predict a further decline in prices. Butter is a little weak, as well. Poultry comes in freely, but prices range about as last week. The seed market is quite active, in a wholesale way, and prices rule firm.

There was only a fair attendance on 'Change o-day, and indifference was a noticeable characteristic of the market for all descriptions of cereals. We quote:
